

FORENSIC SCIENCE LABORATORY REPORT

Report Version 2 (Final)

Case FIR No.: MUM/2026/0217 **Referred By:** Bandra PS **Examining Officer:** Dr. Anjali Menon, Scientific Officer **Unit:** Regional FSL **Badge ID:** FSL-0231

1. Items Received

1. Digital device images extracted from seized mobile phones
2. Server access logs of the 'QuickGain Invest' application
3. Bank transaction records associated with the accused's accounts

2. Updated Findings (Finalized)

Following completion of the full digital-forensic comparison, the laboratory confirms with high confidence that all coordinated fund transfers originated from server sessions authenticated under credentials exclusively controlled by the named accused persons. Cross-comparison of device timestamps, transaction metadata, and server session logs shows no discrepancy across 214 sampled transactions. The finalized DNA comparison results for the physical evidence recovered from the accused's residence also match the reference samples on file with a match probability exceeding laboratory reporting thresholds.

3. Conclusion

Final — the findings in this version supersede the preliminary report (Version 1) and are submitted as conclusive for trial purposes.

This document is a system-generated demonstration record for the CaseVault prototype and does not correspond to any real investigation.
